**STATUS OF THE CLAIMS**

Claims 1-48 are pending in the Application.

Claims 1-48 have been rejected by the Examiner.

Claims 1, 16, 29 and 41 have been amended, without prejudice, herein.

Reconsideration of the present Application is respectfully requested.

**Clean Version of Amended Claims**

---

**Claim 1. (AMENDED)** A system for providing instructions for substantially immovable equipment at an inaccessible location, comprising:

al (A) a permanently spatially fixed memory device affixed to the equipment, the instructions residing on the memory device; and

(B) a portable memory reading device, separate from the memory device, that retrieves the instructions from the memory device and communicates the instructions to a user of said portable memory reading device.

---

az **Claim 16. (AMENDED)** A system for providing information of at least one substantially immovable dedication at an inaccessible location, the information including details concerning reasons for the dedication, comprising:

(A) a permanently spatially fixed memory device affixed proximate to the dedication, the dedication information residing on the memory device; and

(B) a portable memory reading device, separate from the memory device, that retrieves the dedication information from the memory device and communicates the dedication information to a user of said portable memory reading device.

---

---

**Claim 29. (AMENDED)** An information generator for use at an inaccessible location, comprising:

Q3 a permanently spatially fixed memory device affixed at the inaccessible location, wherein said memory device includes thereon a plurality of information related to the inaccessible location;

a portable memory reading device, wherein said portable memory reading device is physically separate from said memory device, wherein said portable memory reading device is communicatively connected to said memory device; and

wherein, upon establishing a communicative connection with said memory device at a request of at least one user, said portable memory reading device receives the plurality of information for display to the user.

---

Q4 **Claim 41. (AMENDED)** A method for providing information related to an inaccessible location to the inaccessible location, wherein the inaccessible location is at least one selected from the group consisting of a cemetery site, a dedication site, an equipment site, and a historically notable site, comprising:

(A) storing the information on a permanently spatially fixed memory device in a format that can be retrieved from the memory device and displayed to a user using a portable memory reading device separate from the memory device, upon request of the

ad user on the portable memory reading device while in proximity to the memory device;

and

(B) substantially immovably affixing the memory device at the inaccessible location.
